Statement for the Year Ended 9/30/2007 – Grand Valley Health Plan NOTES TO FINANCIAL STATEMENTS

1. Summary of Significant Accounting Policies

Basis of Presentation – The accompanying financial statements have been prepared in conformity with the NAIC Annual Statement Instructions and Accounting Practices and Procedures Manual (SSAP's) for health organizations except to the extent that state requirements differ.

Use of Estimates – In conformity with the NAIC Annual Statement Instructions and Accounting Practices and Procedures Manual (SSAP's), the preparation of these financial statements requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and reported amounts of revenues and expenses during the reporting period. These estimates and assumptions may change in the near future resulting in different actual results. Estimates that are most susceptible to change in the near term are accounts receivable and the liability for unpaid and unreported claims.

Investments (Contingency Reserve) – Pursuant to requirements of the Commissioner of Insurance for the State of Michigan, Grand Valley Health Plan executed a trust indenture. The trust is established to provide for the payment of medical services in the event Grand Valley Health Plan is unable to make payment. The agreement requires trust assets to be a minimum of \$1,000,000. The trust account met or exceeded funding requirements, as specified in the agreement. The trust invests principally in government money market funds, is stated at fair market value, and is included in cash and cash equivalents.

Investment in Affiliates – Other Invested Assets consists of a 30% interest in Leonard Street, LLC. Leonard Street, LLC operates and maintains the building used by Grand Valley Health Plan Radiology, Grand Valley Health Plan Pharmacy, Grand Valley Health Plan Beckwith Family Practice, Grand Valley Helath Plan Urgent Care, Grand Valley Health Center OB Center, Grand Valley Surgical Center, LLC, and Orthopaedic Associates of Grand Rapids, PC. The Company accounts for its investment using the equity method of accounting.

Investments in Subsidiaries – None to report.

Bonds – None to report.

Common Stock and Additional Paid in Capital – stated at cost.

Preferred Stock – None to report.

Mortgage Loans (Valuation Basis) – None to report.

Securities (Loan-Backed) – None to report.

Derivatives – None to report.

Liabilities for Claims and Claim Adjustment Expenses – Health care costs are accrued as services are rendered, and include fees to physicians, hospitals, pharmacies and other providers for continuing medical care, and payments made on individual claims for which services have been performed including estimates of services performed which have not yet been reported. The reserves for incurred but not reported claims are to cover this estimated medical cost. Claims unpaid and unpaid adjustment expenses include amounts determined from individual case estimates, claim reports, and an amount for claims incurred but not reported based on past experience. Subsequent actual claim experience will differ from the estimated liability due to variances in estimated and actual member utilization of health care services, the amount of charges, and other factors. While management believes the amount to be adequate, the ultimate liability may be in excess of or less than the amount estimated in these financial statements. The Company limits a portion of their liability through stoploss insurance. The methods for making estimates and for establishing the claims adjustment expense reserve are continually reviewed and any adjustments are reflected as determined in the periodic financial statements.

Capitalization policy – The Company has not modified its capitalization policy from the prior year.

Cash and Short-Term Investments – This category includes deposits in financial institutions and short-term investments with maturities of 90 days or less from the date of acquisition.

Accounts Receivable – This category represents charges to employer groups and individuals, primarily on open account. Adjustments to customer accounts are made to estimate net realizable amounts with appropriate charges to premium revenues.

Inventories – Inventories consist of pharmaceuticals and are stated at cost (first-in, first-out method).

Property and Equipment – Depreciable assets are stated at cost. Depreciation is generally computed using the straight-line method over the estimated useful lives of the depreciable assets except for Health Care Delivery assets which are depreciated over a period not to exceed three years in accordance with SSAP 73, and EDP Equipment and Operating System Software which also do not exceed three years per SSAP 79. Non-Operating software is depreciated over the lesser of its useful life or five years per SSAP 79. If not limited by the aforementioned SSAP, the estimated useful lives are listed as follows:

Building and land improvements 5 - 40 years
Medical equipment 5 - 7 years
Office furniture and equipment 5 - 7 years
Electronic data processing equipment 3 - 5 years

These assets are reviewed for impairment when events indicate that the carrying amount may not be recoverable.

Related Party Transactions – The Company is related with other entities through common ownership and management (see note 10).

Income Taxes – The Company records income tax expense based on the amount of current taxes plus deferred taxes computed based on the expected future tax consequences of temporary differences between the carrying amounts and tax basis of assets and liabilities, using enacted tax rates. Under the statutory basis of accounting some of these deferred assets are considered non-admitted assets and therefore are excluded.
